DETERMINATION OF NONSIGNIFICANCE

Name of Proposal: SPENCER ISLAND TIDE GATE REPAIR

Description of Proposal: The proposed project is to maintain and repair an existing dike around pipes which have been eroded due to river eddy currents. The repair consists of pushing steel sheet piling into the riverbank on each side of the pipes, and filling the area behind the piling and under the pipes with suitable dike material to protect and support them.

Proponent: Washington Department of Fish and Wildlife, Engineering Division. Contact: Glenn Gerth, P.E.

Location of Proposal, including street, if any: Spencer Island, Washington, Snohomish County; Section 15, Township 29 North, Range 05 East WM

Lead Agency: Washington Department of Fish and Wildlife

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of the completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

This DNS is issued under WAC 197-11-340(2); the lead agency will not act on this proposal for 14 days from the date of issue below. Comments must be submitted by: **July 19, 1999.**

Responsible Official: Peter Birch
